

02.

2009 VICTORIAN BUSHFIRES ROYAL COMMISSION

Overview

Hard copy document processing project.

Challenge

Several classified and fragile documents had to be processed but had to remain on-site since these were confidential.

Solution

Law Image designed a solution to process the data on-site. Our staff worked at client premises handling the documents with extra care given their fragile condition.

Results

Over two months, we seconded one of our highly experienced team member on-site, ensuring the scanning process met the client's specifications.

LAW IMAGE COMPLIED WITH STRICT DATA SECURITY REQUIREMENTS OF THE PROJECT AND DELIVERED IT WITHIN THE TIMELINE SPECIFIED BY THE CLIENT.
