

SMART DOCUMENT EVALUATION

SMART DOCUMENT EVALUATION

Evaluate legal documents quickly and easily with our new document evaluation tool.

An addition to our workflow efficiency and productivity technology stack, the document evaluation tool removes the cumbersome process of manually sifting through data trying to locate a piece of information that is relevant to your case.

Leveraging Excel, the smart document evaluation tool allows for mid-sized data sets to be indexed, hyperlinked and categorised with keywords.

ENHANCE THE QUALITY OF YOUR DATA

Every time you evaluate a piece of information you can add additional metadata to make the document more rich.

We recently worked on a large data project for a client. We processed and digitised the physical copies. Using our smart document evaluation tool, we further treated the data, categorising and indexing the information. This helped our client optimise the use of their data.

Using the keyword search, our client was able to quickly find relevant sections/ information from their data set helping them make critical decisions in a timely manner on their case.”

WORK AT A SMART PACE

Law Image has to date processed millions of documents; printing, hard copy and electronic processing for various projects including support for Royal Commission work.

Law Image is a specialist legal information management firm. We support law firms and government departments across Australia. Founded in 1999 and headquartered in Melbourne, we have offices in Sydney and Brisbane. We are also looking to expand our footprint in Australia based on our clients' requirements.

With a completely on shore, in-house processing business model, Law Image helps leading legal firms and government departments comply with their data sovereignty requirements.

OUR BUSINESS DRIVERS

01// SIMPLE

We operate in an agile manner making it simple and easy for our clients to do business with us.

02// SMART

We leverage technology to drive innovation and provide continuous value for our clients.

03// STRATEGIC

We deliver custom solutions helping our clients focus on their core case strategy and maintain their competitive advantage.
